

 NOVAFON

1

PROVEN EFFECT

Relieves acute and chronic pain.
Rehabilitates neurological disorders.

Deep tissue stimulation from the vibrations triggers the body's own response mechanisms and supports the rehabilitation of a variety of ailments: ¹

Reduces tendon pain

Improves gripping function

Relieves muscle pain

Improves gait pattern

Relieves joint pain

Improves vocal function

¹ Lundeberg (1984a): Pain alleviation by vibratory stimulation. Murillo et al. (2014): Focal vibration in neurorehabilitation. Barsties (2018b): Treatment Effectiveness of NOVAFON Local Vibration Voice Therapy for Dysphonia Treatment.

2

POWERFUL BATTERY

Complete flexibility with no cable:
At home, in practices & away.

The new NOVAFON has a long-lasting battery, allowing full freedom of movement. Wireless and practical – the device can be used almost everywhere.

3.5 h

battery life with
continuous use

360°

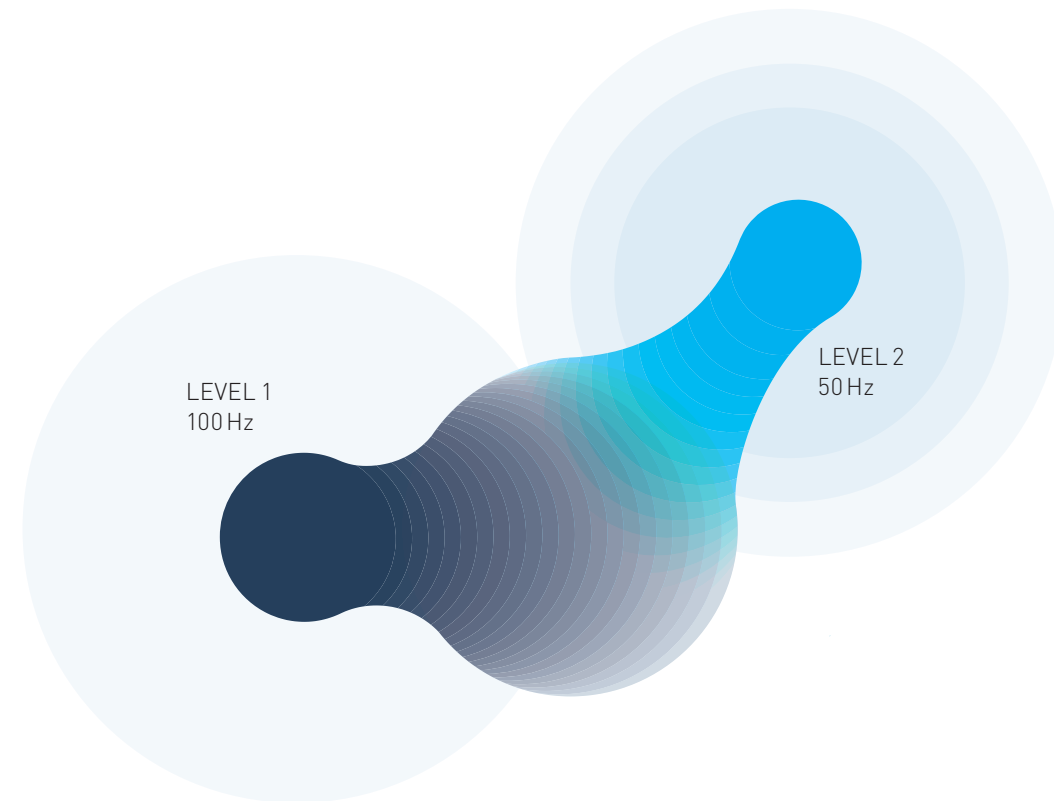

freedom of treatment
and movement

3

WIDE RANGE OF TREATMENTS

Intelligent setting options – can be
adjusted depending on the treatment
and perception

The new NOVAFON offers setting options between 2 frequencies, each with 3 stages of intensity. The intuitive level switch ensures that treatment is conducted efficiently and that the exact setting for the desired treatment mode is selected. From very gentle to strong – the various intensities enable a wide range of treatments from head to toe and can be easily adjusted to the sensitivity of each person.

PROVEN TECHNOLOGY

Used successfully for many years

"I use the NOVAFON in my shoulder and neck area and for severe sciatic pain. I am very satisfied, I had tested the device while receiving rehabilitation treatment." *

User U. Wietschorke ¹

¹Homepage product rating NOVAFON pro, 25.03.2017; ²Therapy report Schlimm Physio & Relax, 26.08.2005; *individual medical case report: It is possible that there is not enough clinical data available to prove that local vibration therapy is generally suitable for the described symptoms. These are user quotes taken from the NOVAFON product ratings.

"Patients report immediate pain relief and improved movement of the superficial outer areas of the joints (knee, foot, elbow, wrist, shoulder, spine, jaw) that last for around 2–3 hours. After 3 weeks of daily treatment, it is not uncommon to see improvements in the symptoms by up to 90%." *

Schlimm Physio & Relax, Sindelfingen ²

ALL USER GROUPS

The new NOVAFON for therapists and private users

Whether at home or during professional treatment, the new NOVAFON is used to support the treatment of many disorders. Speech therapists, physiotherapists, occupational therapists and others swear by the proven NOVAFON technology and recommend their patients to use it at home. NOVAFON is proven to be effective and is easy to use.

SPEECH THERAPY

Voice Improvement of vocal function

Swallowing Activation of muscles

Speaking Improved muscle activation

Myofunctional therapy Activation of hypotonic muscles

Intraoral treatment Improvement of intraoral perception

PHYSIOTHERAPY

Spasticity Improvement of gait

Pain Pain relief and improved mobility range

NATUROPATHY

Myofascial pain Pain relief and muscle relaxation

Joints and inflammation Pain relief and improved mobility range

Trigger and acupressure points Muscle tone regulation and pain relief

Sports therapy Promoting regeneration by tissue stimulation

OCCUPATIONAL THERAPY

Spasticity Improvement of grasping function

Hemineglect Improved exploration at the affected side

Pain Pain relief and improved mobility range

VETERINARY MEDICINE

Horse therapy Pain relief and regeneration

Treatment of small animals Stimulation of the rehabilitation of orthopaedic and neurological disorders

SELF USERS

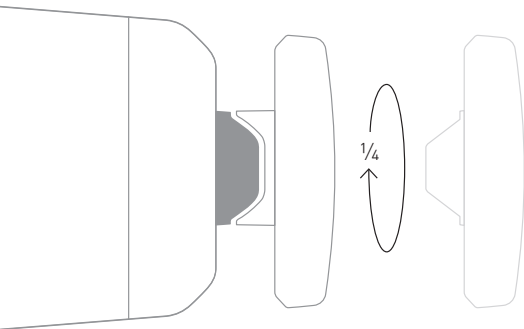

Orthopaedic symptoms such as muscle, joint and tendon pain Pain relief and regeneration

Neurological disorders after admission Function maintenance and proprioceptive system stimulation

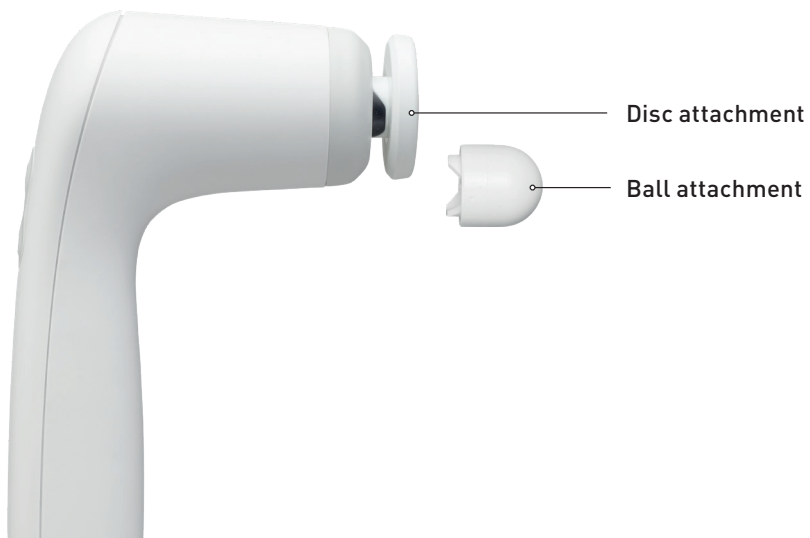

6

EASY CHANGE OF ATTACHMENTS

Intelligent system to mount attachments.

Each attachment can be easily and effortlessly attached or removed by twisting it 90°.

7

INTELLIGENT DETAILS

Various holding options and intuitive one-hand control

The sophisticated shape of the device enables various gripping and holding positions for a relaxed posture during treatment and targeted application of the vibrations.

Furthermore, all settings can be easily adjusted on the device with only one hand using the multi-function button. This means the device does not have to be removed during treatment and the treatment steps can be performed seamlessly.

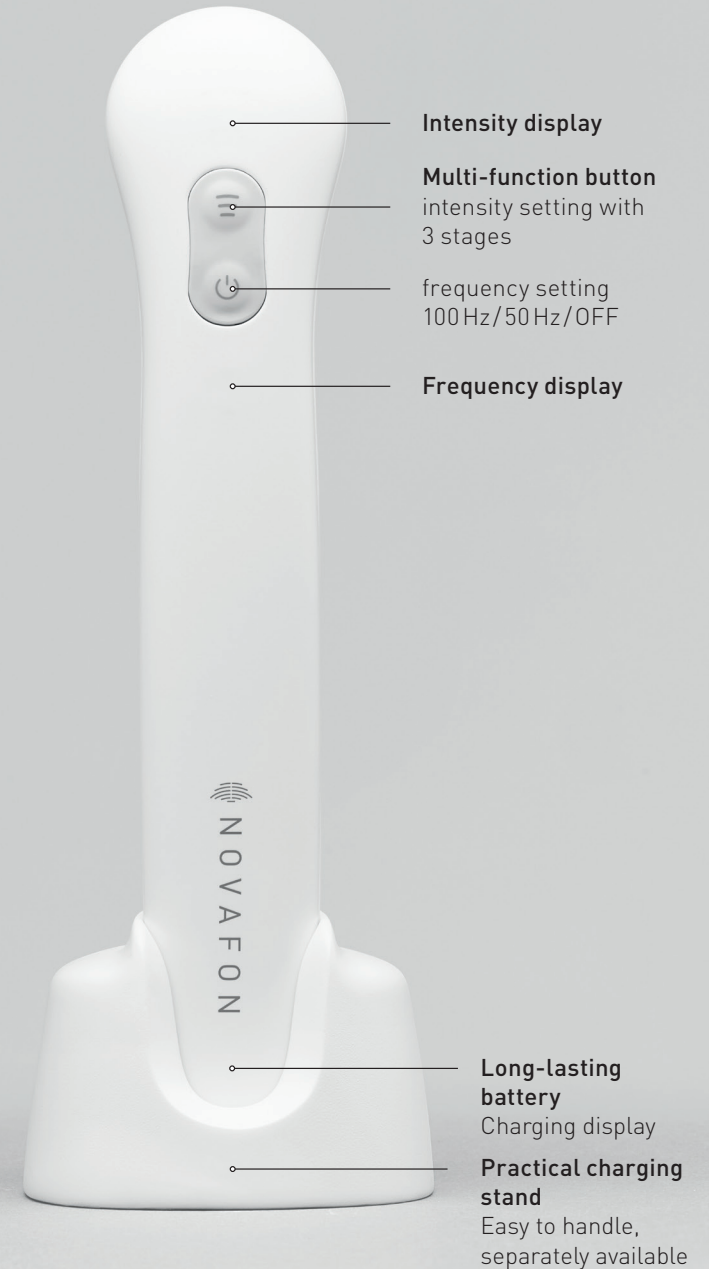

PRACTICAL CHARGING STAND

Simplified charging and professional presentation.

The charging stand is a perfect addition to the new NOVAFON: Easier charging due to a stable footing and a simplified storage of the device are the outstanding properties. The simple and time-less design also underlines the professional character at the workplace or at home.

Easy to charge
even without the
charging stand
via USB-C
